SUMMARY

Computer Science (AI/ML) student and builder who pairs hands-on software development with proven program leadership: shipped full-stack, AI-integrated products end-to-end (React/Next.js, Python) while independently leading cross-functional teams, budgets, and stakeholders at scale – from a 40-person event team to a district-level tech initiative. Completing the Google Project Management Professional Certificate. Seeking a Google APM/PM Apprenticeship role to bring a builder's technical fluency and a proven track record of driving programs from ambiguity to on-time, on-budget delivery.

LEADERSHIP & PROGRAM MANAGEMENT

Community Service Director

July 2026 – Present

Rotaract Club of Swarna Bengaluru

Bengaluru, IN

- Own end-to-end planning and execution of the club's community service portfolio, translating annual goals into a prioritized roadmap of literacy, health, and outreach projects
- Led **Dari Deepa**, securing 30,000 in funding and partnering with the Karnataka Forest Department to procure and distribute torches for forest staff conducting night patrols
- Spearheaded **Nudi Muttu**, designing and distributing basic-Kannada literacy posters across community locations to improve language accessibility for underserved residents
- Coordinate cross-functional volunteer teams, external NGO/government stakeholders, and budget approvals, and report progress against defined success metrics to the club board

Tech Team Member

July 2026 – Present

Rotaract District 3192

Remote

- Collaborated with district leadership to plan, develop, and launch the official Rotaract District 3192 website and a centralized event management platform supporting 50+ member clubs.
- Facilitated requirement gathering with district officers and club leaders, prioritizing features and coordinating implementation with the technical team.
- Improved district event registration, attendee management, and reporting processes by delivering scalable digital solutions that streamlined administrative workflows.

Lead Organizer & Licensee

January 2025 – April 2025

TEDxICEAS

- Spearheaded TEDxICEAS 2025 under the theme "Threads of Change," owning the full event lifecycle – scope, timeline, budget, and stakeholders – for 100 attendees
- Led a cross-functional team of 40+ members across logistics, speaker curation, sponsorship, and design, resolving competing priorities to hit every milestone
- Secured sponsorships and managed vendor coordination, ensuring zero budget overrun on event day

Focus Head – Basic Education & Literacy

2025 – July 2026

Rotaract Club of Swarna Bengaluru

- Led community outreach initiatives in partnership with government schools, executing literacy programs for underprivileged students
- Coordinated volunteers and managed project timelines to ensure consistent program delivery across multiple school locations

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, Python, Python OOP

Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Material UI, Django

Databases & Backend: Firebase (Auth, Firestore), Supabase, MySQL, MongoDB

Auth & APIs: Clerk, GROQ API

Product & PM Tools: Requirements gathering, roadmapping, stakeholder management, agile/sprint workflows

Developer Tools: Git, GitHub, Vercel, VS Code, Canva, Adobe Express, Linux

EXPERIENCE

Full Stack Python Intern

Feb 2026 – Present

Dhee Coding Lab

Bengaluru, IN

- Gaining practical experience in full-stack development through structured training in HTML, CSS, JavaScript, React, Python, OOP, and MySQL

Software Engineering Fellow

July 2024 – September 2024

Headstarter AI

Remote

- Built 5 AI-powered web applications using Next.js, Firebase, and MongoDB, integrating machine learning APIs for personalized user experiences
- Designed and shipped responsive interfaces using Material UI, improving component accessibility and reducing UI inconsistencies
- Collaborated in an agile fellowship environment, shipping features weekly under mentorship from senior engineers

Student Ambassador

October 2022 – July 2023

Viral Fission

Remote

- Organized and hosted 5+ blockchain gaming events attracting 100+ participants, driving measurable community growth
- Produced promotional video content and reels for brand campaigns, contributing to increased social media reach and engagement

PROJECTS

ImpactOne | *Next.js, React.js, Supabase, Clerk*

- Engineered a full-stack facility booking platform serving students and administrators, reducing manual coordination effort by ~60%
- Implemented role-based authentication and access control using Clerk, ensuring secure multi-user flows
- Integrated Supabase for real-time database management, enabling instant booking updates across user sessions
- Built a fully responsive UI using Next.js, achieving consistent experience across mobile and desktop

WandereAI | *Next.js, React.js, REST APIs* | devfolio.co/projects/wandereai-9536

Hack This Fall 2024

- Built an AI-powered travel planner that generates dynamic day-by-day itineraries balancing activities, meals, rest, and transit
- Integrated real-time weather and local event APIs to auto-adjust plans on the fly, improving itinerary accuracy
- Incorporated authentic traveler reviews and regional data to surface local favorites over generic tourist recommendations

INVOLVEMENT

Open Source Contributor

October 2024 – November 2024

GirlScript Summer of Code (GSSoC)

- Contributed to 10+ open-source repositories, implementing features and resolving bugs via pull requests
- Ranked #758 globally among all GSSoC 2024 participants based on contribution quality and volume

CERTIFICATIONS

Google Project Management: Professional Certificate – Google via Coursera (*In Progress*)

Foundations of Project Management – *Completed*

Project Initiation: Starting a Successful Project – *Completed*

Google AI Essentials – Google via Coursera

Meta HTML & CSS in Depth – Meta via Coursera

Meta Version Control – Meta via Coursera

EDUCATION

Impact College of Engineering and Applied Sciences

Bachelor of Engineering in Artificial Intelligence and Machine Learning

2022 – 2026

Presidency PU College

Pre-University – Physics, Chemistry, Mathematics, Biology

2019 – 2021
